Scope of Work
 This proposal will upgrade and expand the Court's ability to conduct remote arraignments and off-site hearings. The expansion will provide the equipment for two courtrooms to connect to a remote site at the same time. The current limitation of one connection that each Courtroom must share. The new system will support 2 connections simultaneously. The address will be programmed into the Crestron system. The User interface for the Judge and other Users will remain the same.

The current Polycom video conference codec is end of life and is no longer supported by Polycom. This proposal will upgrade the current unit and add one more to the system. This proposal will also add audio DSP to support the added remote connections for acoustic echo cancellation. A Dante audio switch will be added to connect the DSP into an IP audio network. The video router will be upgraded to support the added video routes.

Below is the list of major equipment required for this Scope of Work:

		Provide and Install 2 Video Conference CODEC to Remote Arraignment System to support two off site video calls at a time Replace Existing Obsolete CODEC		
	2	Polycom CODEC Group 700	13,500.00	27,000.00
	2	Polycom Gold Seal (Required)	1,850.00	3,700.00
Extron	1	AV PLUS 1616 AV - Replacement Video Router		4,250.00
		Stereo Audio		
BIAMP	2	Fixed I/O DSP with 12 analog inputs, 8 analog outputs, 8 channel	2,800.00	5,600.00
	1	Dante Audio Switch		420.00
	1	Cables and Adapters		175.00
		Subtotal Equipment		41,145.00
		Programming		2,400.00
		Drawing Revision		400.00
		AV Technician Labor		3,600.00
		Subtotal Labor and Services		6,400.00
