EMPLOYER CERTIFICATION INSTRUCTIONS

(TO BE COMPLETED BY EMPLOYER)

- A. List total compensation paid and full amount of city tax withheld.

Compute the amount to be entered in "Income Earned in Parma" by multiplying the total compensation by the ratio of days worked in the City to total days worked. Days worked only refers to the number of days on the job. An employee is on the job when there is a holiday, or when he is sick or on vacation.

EXAMPLE: An employee worked 195 days in Parma and 65 days out of Parma, or a total of 260 working days. Report as wages earned in Parma, 195/260 or 3/4ths of his total wages (which would include vacation pay, holiday pay and sick pay), since all pay has the same relative tax location as the location where the employee performs his services.

For employees paid on a commission basis, the ratio of commissions earned in Parma to total commissions should be used instead of using days worked.

- B. **Basis for Refund:** A brief but complete explanation by the employer is required concerning the reason for the overpayment to be refunded. Explain method and show computations used to determine amount entered in "Income Earned in Parma."
- C. Show the employee's address as listed on the employer's records.

The employer's Certification must be signed by the employee's supervisor or other responsible representative of the employer who has knowledge that the information given is true and correct.

Separate requests are required if more than one employer is involved.
